

SOHA A MSALLAM

Software Engineer | Data Analyst

SUMMARY

Analytical and detail-oriented Computer Engineering graduate transitioning into Data Analysis, with a professional background in Web Development and a strong foundation in programming, databases, and data-driven systems. Skilled in Python, SQL, Excel, Power BI, and R for data cleaning, transformation, analysis, visualization, and reporting. Experienced in working with databases, APIs, and structured data, with hands-on experience in PHP, Laravel, and SQL-based applications. Strong problem-solving and analytical skills, with a focus on data accuracy and meaningful insights.

EXPERIENCE

Data Analyst

Independent Projects 📅 2026 – Present

- Conduct data analysis and reporting using Python, SQL, Excel, Power BI, and Tableau.
- Clean, transform, and analyze datasets to identify trends and generate meaningful insights.
- Create dashboards, charts, and visual reports to communicate analytical findings.

Data entry employee

UNRWA 📅 2023-2024 📍 KhanYounis

- Entered and maintained data accurately in organizational records and systems.
- Organized information while maintaining accuracy and confidentiality.
- Worked effectively under pressure and met assigned deadlines.

Laravel Web Developer

Serious Company 📅 2022 – 2023 📍 Gaza

- Developed and maintained Laravel-based web applications.
- Created REST APIs and optimized backend logic.
- Worked in a collaborative team environment.

Teacher Assistant

Islamic University 📅 2021 – 2022 📍 Gaza

- Assisted professors in computer engineering courses.
- Supported students in coding labs and project debugging.

Web Development Trainee

iPhone Esham Company 📅 2021 – 2022 📍 Gaza

- Completed 150 hours of Laravel and PHP training. - Built small-scale projects under supervision.

EDUCATION

B.Sc. in Computer Engineering
Islamic University of Gaza

GPA
88.83 / 100.00

📅 2021 📍 Gaza

- Ranked 3st in Faculty of Engineering

SKILLS

Data Analysis

- **Python:** Pandas, Matplotlib, BeautifulSoup, re, os
- **R Programming:** dplyr, tidyr, ggplot2, Shiny, tm
- **SQL & Databases:** MySQL, SQLite
- **Business Intelligence & Data Visualization**
- **Power BI:** DAX, Power Query, APIs, Data Visualization, Dashboard Development
- **Excel:** Pivot Tables, Pivot Charts, VLOOKUP, HLOOKUP, VBA

Full Stack Web Development

- **Frontend:** HTML, CSS, JavaScript, Bootstrap
- **Backend:** PHP, Laravel Framework
- **APIs & Architecture:** REST APIs, MVC Architecture
- **Version Control & Databases:** Git, MySQL

Data & Information Management

Data Cleaning, Data Transformation, Data Analysis, Data Visualization, Data Reporting

Programming Languages

Python · SQL · Java

Soft Skills

Teamwork, Problem Solving, Analytical Thinking, Attention to Detail, Communication, Teaching

LANGUAGES

Arabic **Native**

English **very good**
